

Michigan Science Olympiad - 2018 Career Preview

The mission of Michigan Science Olympiad is to inspire the next generation of scientists, engineers and health professionals. We invite your organization to participate in our Career Preview.

This year, Michigan Science Olympiad will bring together 1800 of the top science students to compete in the State tournament. These students represent the top 25% of High School and Middle School teams from across our state. It requires both talent and dedication to perform at this level, and earn a spot at this competition.

These students and their families want to hear from your organization about exciting science-based careers. This is an opportunity to tell your story and to connect with the talent who will become the future of your industry. These students will soon be making a decision about what to study in college.

What is required to participate?

Bring a few people to represent your organization, and a brochure or other information that students may keep. Give a short presentation to help students understand why they should consider a science-based career in your industry.

What do we provide?

You will have a table in the venue common area during the entire 2 ½ -hour event and the option to host dedicated 25-minute period (or less) in a breakout room for you to tell students your story. If you require additional support, please let us know.

Is there a participation fee?

There is no fee. We have space for 25 organizations to participate. We would like to have a broad distribution of science disciplines represented.

Sponsorship Opportunities

Consider becoming a financial sponsor of Science Olympiad! Sponsors make this program possible, and help keep the cost of participation low for teams. We would be pleased to have your organization sponsor a specific competitive event at the tournament for a few hundred dollars, or be a premier sponsor of the program for a few thousand. More details are available on our website at www.miscioly.org.

Michigan Science Olympiad - 2018 Career Preview

Purpose:

- Introduce students to interesting science-based careers
- Help students understand how to prepare for a particular career
- Attract talented students to the careers in your industry

When: 2:30 – 5:00pm, Saturday April 28, 2018

Where: Biomedical and Physical Sciences, MSU Campus, East Lansing

Event Layout:

- A common, central room where organizations may host a table or booth
- Breakout rooms where organizations may present to students for up to 25 minutes. To the extent it can be arranged, each breakout room will be organized around a common theme (e.g., Life Sciences). It will depend on who participates.

There will a drawing for two Dell laptop computers open to students who participate in this event.
