

# FLAVOR!

## FEBRUARY 26<sup>TH</sup> 2019

Great Lakes Section  
Institute of Food Technologists

▶ **Battle Creek – 34 W Michigan Ave**

- **TITLE: FLAVOR TRENDS: HYBRIDS, EXTREMES, AND WHAT TASTES GOOD RIGHT NOW!**
- **LIMITED TO FIRST 30 ATTENDEES!**
- **DINNER AT KITCHEN PROPER, FOLLOWED BY DESSERT/PRESENTATION AT FONA**

**Speaker: Suzy Badaracco**

Suzy Badaracco is a toxicologist, chef, and registered dietitian. She holds a Bachelors of Science degree in Criminalistics, an Associates degree in Culinary Arts, and a Masters of Science degree in Human Nutrition.

Suzy has worked as a trends forecaster for food industry clients since 1992. Suzy has been trained in military intelligence, chaos theory, and predictive analysis techniques used by both corporate and government bodies and has been practicing trends intelligence and predictive forecasting for more than 15 years.

Using these techniques, she has been able to successfully predict and profile government, technology, adversary and ally, food, flavor, consumer, industry, and health trends.
